Tone of *Voice*

We are:

- Authoritative without being arrogant – we know our field deeply
- Clear & transparent – no jargon, no hidden costs, no confusion
- Genuinely human – professional but never robotic
- Trustworthy partners – we do what we say we'll do

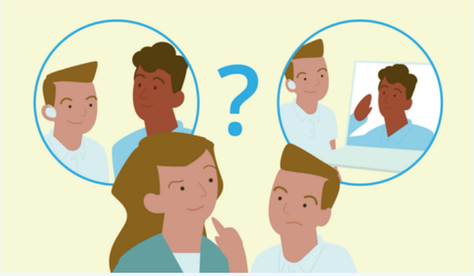
We sound like: The expert colleague you'd want to grab coffee with e.g. someone who can explain concepts simply, then connect you with the perfect specialist for your case.

We never: Hide behind corporate speak, oversell, or underestimate our audiences' intelligence.

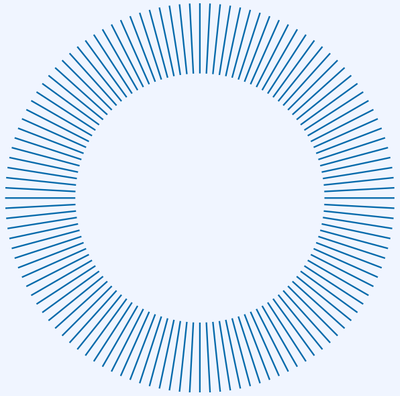
Similar to the evidence-based wisdom of Dr. Rangan Chatterjee, communicated with his signature empathy and practical approachability.

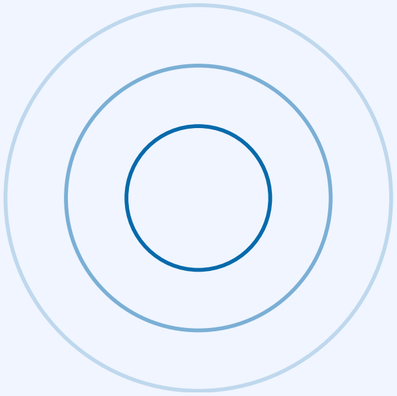
Icons and *Images*

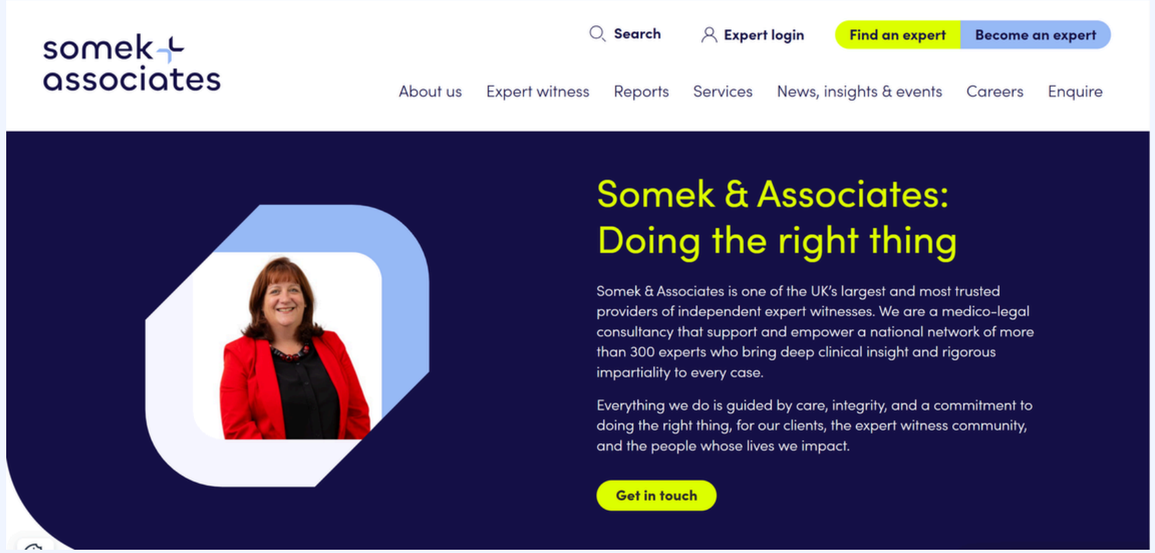
Education



Icons and *Images*



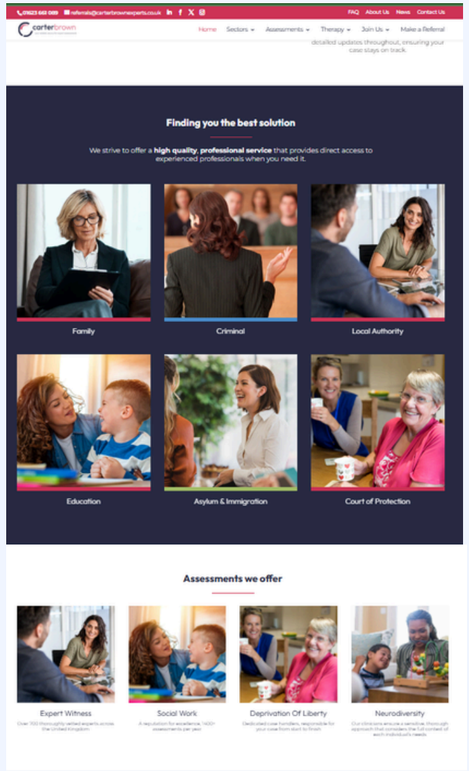




Rotating images of staff makes it feel personal and shows the face behind the business.

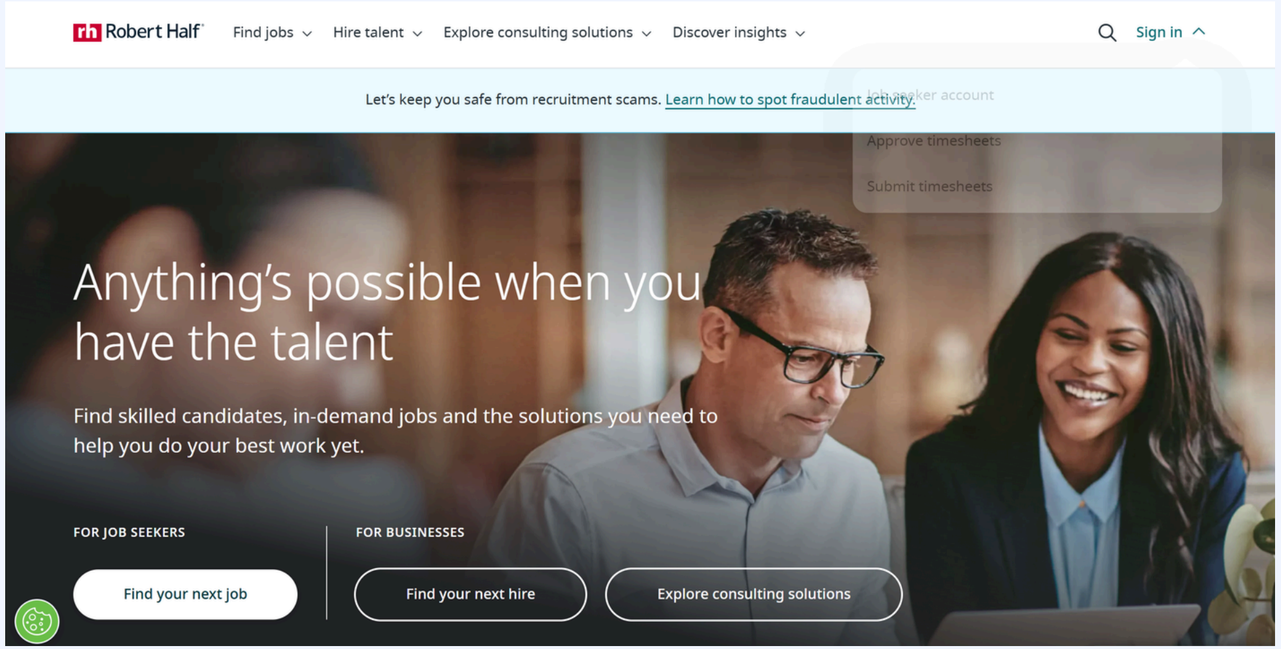
Clear navigation

Too much text



Don't like to stock imagery however we do like the big clear service tiles.

Easy to digest



Big clear call-to-actions

Easy navigation
